### HABILIDADES

Css  
  
Html  
  
Sql  
  
Python

In this year i see my future like a garden. "i plant and i see flourish". yes, i like gardening, but lest's get to the point. this last year i have had a great attraction and passion for technology. although i don't know to much about artificial intelligence(ai) and machine learning, it is the most interesting topics and i am in the process of learning these amazing topics. for that reason, i started my learning python and django season. i have so much creative ideas and slowly my garden grows plant by plant.
